

# Achieve more with KROHNE

**KROHNE**

 measure the facts

KROHNE is an innovative process instrumentation and measurement solutions company operating in more than 40 countries. Through continuous research and development and a consistent customer orientation, we are one of the leaders in our industry. KROHNE Limited, based in Wellingborough, Northamptonshire is the KROHNE group's centre of excellence for Coriolis mass flowmeter technology with over 90% of production destined for the export market.

KROHNE Limited is looking for a

## **Welder**

Purpose of the role:

- To provide a high quality, efficient welding service within the production team and wider Krohne Ltd Operations department. Working within a highly skilled and qualified welding team you will use a variety of jigs, fixtures, welding plant and manipulators to assemble and weld a wide range of Coriolis mass flow instrumentation to exacting standards.

## **Your main responsibilities:**

- To carry out all required welding work for the production of Coriolis flow meters to the highest standard
- To acquire the knowledge and qualifications for welding the complete size / range of instruments ensuring the necessary quality standards are achieved.
- To carry out basic assembly related work such as expanding, pressure testing, helium leakage testing as required
- To assist in other production related tasks, when required by the line team leader or Production Manager as appropriate within the line or wider production department.
- To work in accordance with Health & Safety procedures as set out by the company, especially regarding Manual handling and PPE.
- Support customer inspection activity
- To maintain all welding equipment / hand tools in good working condition and keep the welding bays tidy / organised in line with company housekeeping standards.
- To assist in development of new production methods, to assist in improvements to the present product lines or development of new products.
- Perform TPM and preventative maintenance tasks on equipment and fixtures as requested.
- To support continuous improvement activity and take an active role in the implementation of improvements.
- Support all ERPLN requirements.

## **We offer:**

A competitive salary with excellent benefits.

## **Other:**

Unfortunately, we can only process applicants who are eligible to work in the UK.
