KROHNE Inc. headquartered in Beverly, MA covers the United States, Canada, Mexico, and the Caribbean regions through a vast network of direct sales personnel and representative partners.

KROHNE Inc. is looking for a

Field Applications Engineer - Gulf Coast - US

We are currently looking for a professional to join our dynamic, growing team as a Field Applications Engineer – Gulf Coast United States. Based in our Houston, TX location, this person will assist customers and the sales force in the field with troubleshooting, programming, and repair of all KROHNE products as well as provide pre-sales technical and applications support for our major accounts.

Your main responsibilities:

- Provide customers and sales channels with relevant advice concerning the suitability of KROHNE products for certain applications.
- Assist customers and sales force in the field with troubleshooting, diagnosis, and programming on all KROHNE, Inc. products.
- Perform customer training and assist sales force with product presentations.
- Responsible for hiring and training field service providers within region and scheduling field service work in region.
- Responsible for all test and evaluation products within region.
- Maintain communication with all key accounts and key customers within region.
- Available to travel outside of region on occasion as required.
- Provide technical phone support to end customers and sales channels either on scheduled weeks or not.

Your qualifications:

- Associates of Applied Science in Instrumentation or five years of product and/or industry experience may be accepted.
- Excellent analytical and problem-solving skills.
- Communicates well with strong interpersonal skills.
- Excellent at time management with exceptional organizational skills.
- Excellent computer skills including proficiency in MS Office.
- Demonstrated ability in successfully working independently and efficiently in order to prioritize and address multiple projects simultaneously.
- Valid drivers license and clean driving record.
- Candidates must already have a work authorization that would permit them to work in the US.

Preferred:

- Bachelor's degree in engineering.
- Previous application experience with flow and level products.
- Previous work, internship or Co-op experience.
- Previous knowledge of chemicals and their behavior with regard to corrosion & material compatibility.

We offer:

Salary commensurate with experience and the responsibilities of the role.

Employees enjoy working for an international, privately held, family run company with a friendly environment as well as a full program of employee benefits including:

- Medical
- Dental
- Short term and Long-term Disability
- Vision insurance
- Life insurance
- 401k plan with company match
