Join KROHNE's Innovation and R&D Hub in Ankara!

KROHNE is a **globally recognized manufacturer and supplier for process instrumentation**, known for delivering cutting-edge solutions in industrial measurement technology. With **established R&D sites in Germany, the Netherlands, and the UK**, we are now **expanding our innovation ecosystem by opening a brand-new Innovation and R&D Hub in Ankara, Türkiye.**

Our Innovation and R&D Hub in Ankara will play a **critical role** in the development of next-generation **sensor technologies, digital twins, and industrial measurement solutions**. We are looking for talented engineers and scientists who are eager to shape the future of measurement technology in an **international and collaborative research environment**.

KROHNE Türkiye is looking for a

R&D Engineer – Simulations Expert for Electromagnetic Fields

We are building our team at the Innovation and R&D Hub Ankara! If you are passionate about cutting-edge technology and hands-on engineering, this is your chance to play a key role in developing and maintaining advanced measurement and instrumentation systems that drive the development of groundbreaking sensor technologies in an innovative environment.

Your main responsibilities:

As an R&D Engineer – Simulations Expert with focus on Electromagnetic Fields, you will:

- Develop advanced sensor systems, covering electrical, electromagnetic and electromechanical functionalities.
- Optimize sensor performance by deeply understanding measurement principles and sensor technologies by means of simulations, and electromagnetic simulations in particular.
- Design and operate experimental setups to validate system performance.
- Design and improve electromagnetic actuators in sensor-actuator systems.
- Analyze and mitigate electromagnetic interference to enhance product reliability.
- Develop shielding techniques to reduce noise and signal disturbances.
- Collaborate in international multidisciplinary teams to integrate electromagnetic design improvements into product development.

Your qualifications:

- Master's or PhD Degree in Physics, Electrical Engineering or a related field.
- Minimum 5 years of relevant experience in R&D, and instrumentation development.
- Experience with electromagnetic simulations (ANSYS Maxwell, COMSOL, or similar tools).
- Fundamental programming skills (Python or MATLAB for data processing).
- Team player with an international mindset and willingness to collaborate globally in a cross-functional team.
- Proficiency in English (written and spoken).

If interested, please send your CV with a cover letter stating your salary requirements in PDF format to: Didem Tamtunali • Innovation Manager • rndturkey@krohne.com

KROHNE

► measure the facts

- No travel restrictions.
- In possession of a Class B driver's license with active driving experience.
- Strong analytical and problem-solving skills with a high level of attention to detail and a systematic approach to work.
- Strong interpersonal skills, excellent verbal and written communication abilities.
- Well-developed representation and presentation skills.
- For male candidates, military service must be completed or deferred.
- Adaptable to flexible working hours.
- Residing in Ankara.

Optional:

- Experience with industrial sensor design.
- Experience with flow measurement principles
- Hands-on experience with measurement equipment.
- Knowledge of CAD tools like SolidWorks.
- Understanding of various sensor technologies (temperature, strain gauges, hall sensors, etc.).
- Several years of professional experience in sensor design and analysis.

Apply now to be part of a cutting-edge innovation and R&D team in Ankara!
